

My name is..... I was born in Douar .....on 11<sup>th</sup> November, 1994 . My Douar is far from Asni at about 10 Km. I have 2 brothers. My father is a laborer, and my mother is house wife.

**My impressions before joining the house:**

when I was in CE5, I thought to stop my study because I did not have the financial means, but one day, a responsible from "Dar Talibah" in Asni told me about an association which helps girls to continue their study.

I talked with my family about that, and they gave me the choice. Therefore, I thought to continue my studies with them.

The following Monday, I decided to come and visit place in which "the Education for all" is located. It is wonderful place, even it was a little far from home, and I joined the girls there. After 7 months, we moved to another Dar and we celebrated that with a big party.

**My impressions about the house:**

When I met Miss Latifa, I've found her a real sister to us, the same with the other girls Alima and more other 9 girls.

-- We now have a very big house that looks like a large building

-- We are now very near to school

-- We now have a lot of toilets, dishwashers, a big Fridge, two beautiful Chimneys, beautiful tables etc... +

-- Most important for us is that we, have all the means to study, like blackboard, Hall of the Internet and many ways to distract

**My future Impressions, after the departure from this Dar**

I hope that I would be a member in the success of this project, for the education of new girls and hope that they will have such an opportunity.

**How the other girls look to us?**

Everyone, wanted this success and be a part of "Education for All"  
And everyone tell us that we are lucky
