

My Name is; my birth date was on August 23rd, 1994 at1 Village.
My Father is employee and my mother is house wife.
I have 3 brothers and 2 sisters

When I first heard about the girl's house, I was thinking that the future will be much better, but at the same time I had many question about who will take care of us and if we will be as a family or no

The ex house I was living at, was smaller and had 1 bathroom and 1 restroom
The actual house is bigger and much comfortable, we have all what we need and even more, we have biggest rooms bathrooms and rest rooms
We have also internet fridges ...etc
By living at the new girl's house I feel that I have being changed completely, I have new habits; I sleep early I care more about my hygiene and about my study.

Thank you Mrs Latifa and Mrs Alima , I feel now that I have a new family of eleven sisters
I would like to thank the association for caring about us, and I hope that when I will leave the house to become a member of the association and help other girls like me.
